Experience

Juro.AI
Dec 2024 — Jan 2025
Egypt

AI Engineer
Project-based — On-site

- Multi-agent system using CrewAI framework
- Intelligent search query generation
- Multi-platform product search (Amazon, Jumia, Noon)
- Automated product data extraction and comparison
- Professional HTML procurement report generation
- Multi-language support
- Sequential workflow automation

Techno Hacks
Oct 2023 — Nov 2023
Nashik, Maharashtra

Data Analyst
Full-time — Remote

- Cleaned and analyzed data sets, calculated summary statistics, and used pivot tables to identify key insights for decision-making.
- Developed interactive dashboards using Power BI to visualize and communicate data trends and performance indicators.
- Collaborated with teams to deliver actionable insights, supporting business strategies and optimizing performance.

NTI
Jul 2023 — Aug 2023
Menofiyah, Egypt

AI Data Analyst
Full-time — On-site

- Applied AI-driven techniques to analyze large datasets, uncover patterns, and generate predictive insights.
- Cleaned and prepared data for machine learning models, ensuring high-quality data inputs.
- Utilized data analysis tools, including Power BI and Python, to build dashboards and visualizations that communicated complex findings.

Education

Faculty Of Artificial Intelligence Menoufia University

Bachelor's degree, Computer Science
Oct 2022 — Oct 2026

Skills

AI Programming
Agents Building
Computer Vision
Data Analysis
ML, DL, NLP
Big Data & Cloud
